FOR THE THROAT AND VOICE

IMPORTANT TESTIMONIAL FROM

Madame Melba

THE GREAT PRIMA DONNA.

30 Great Cumberland Place, W.

Sir,—I have found great benefit from the use of your "VOXINE," which I consider an excellent preparation. It relieves the throat, and restores vigour to the voice in a remarkable manner. It is also pleasant to take, and should be more widely known.

Yours faithfully,

NELLIE MELBA.

My Dear Sir,

"VOXINE" is certainly very helpful. Those who use the voice constantly and live in the damp and thick climate of London need such a clearer for the throat, and I think you have hit upon something useful.

WILLIAM SINCLAIR,
Archdeacon of London.

To those who do NOT AT PRESENT suffer from Sore or Weak Throat, and who therefore do NOT AT PRESENT require "VOXINE" :—

By the time you need "VOXINE" this paper may be destroyed or mislaid. You may remember the name of the preparation and forget the name of the maker, or you may remember both of these and forget the address, although you will recollect clearly that there is a good remedy, about which you once had a circular. In a case like this a pencil-note in a Pocket-book may prove of great value. It is suggested that you write "VOXINE" in some convenient place where you are sure to be able to find it.

"VOXINE" is now being regularly supplied to ALL Operatic Societies, Choirs, Schools of Music, &c., &c.

The Close, Ripon.

Dear Sir,—I have used "VOXINE" at intervals for the past two years, and have always found it a successful antidote to those troubles which inevitably befall the Singer and Speaker.

I have also found it invaluable as a Throat Tonic, and have administered it to the Cathedral Choristers with excellent results.

Very faithfully yours,

CH. H. MOODY,

Organist and Choir Master of Ripon Cathedral; Lecturer in Music at the Ripon and Wakefield Diocesan Training College.

FOR THE THROAT AND VOICE

Dear Sir,

7 Byfeld Gardens, Barnes, London, S.W.,

Jan. 30th, 1909.

Please send me per return 11/- bottle of "VOXINE." For some time past I have been in the habit of taking it after dinner in place of a Liqueur. I find it a capital *Digestive*, and it keeps my Throat and Voice in fine form for any speaking for which I may be called upon. I am not a singer, but I find it most useful for getting through a speech—or even ordinary conversation—without that tired and husky feeling in the throat which I always suffer from if I neglect to fortify myself before-hand with "VOXINE." It is so palatable and pleasant (in addition to its intrinsic usefulness) that I am surprised it is not more adopted in the place of Liqueurs, which, although pleasant, cannot claim any useful purpose. Served in Liqueur glasses it forms a dainty adjunct to one's dinner, and a Hostess who gives musical evenings would do well to prime her singing guests with it. It not only preserves the voice in good tune throughout the evening, but is at once a harmless "Liqueur" which the most fastidious person may imbibe with impunity. I recommend it from a long experience of its efficiency, and I wish you all the success it deserves. Yours truly,

FRANK TIMPSON.
